Rafal Ulatowski

Software/Cloud Engineer | C#, .NET Core, Azure, Software Development

Capital Region of Denmark, Denmark

Summary

Driven and seasoned professional in software development with over 15 years of experience in architecting, designing, and developing solutions. I prioritize SOLID principles for creating reliable and maintainable code. My expertise lies primarily in .NET, C#, and the Microsoft Stack, supported by strong research and analytical skills.

I bring to the table a diverse skill set including:

In-depth knowledge of C#, ASP.NET, .NET CORE, MVC, and REST API

Expertise in Azure, Azure DevOps, SQL, and MS SQL Server, Messaging systems like Azure Service Bus

Experience with Webforms, WCF, Web Services (SOA), and Windows Services

Proficiency in front-end technologies like JavaScript, HTML, CSS

My career has spanned all phases of IT projects, from design and requirements gathering through development, testing, QA, and maintenance. I am dedicated to delivering solutions that are stable, operationally sound and also easy to maintain.

I love identifying weaknesses in existing systems, enjoy troubleshooting complex issues, and especially enjoy optimizing multithreaded systems.
